COMPLIANCE COMPONENT

Last Updated: 7/1/05

DEFINITION	
Name	Country and Citizenship Code Table
Description	This document contains the basis for the creation of a country and citizenship data element standard for the classification of people based upon their location within a country
Rationale	Provides a set of guidelines in which the country and citizenship data elements can be uniformly defined, coded and maintained thereby allowing integration and interaction between state systems within Missouri
Benefits	• Used in statistical gathering of the population to observe and monitor the change in country data for the State of Missouri • Provides a baseline for the monitoring and enforcement of country or citizenship related issues.
